

# HeartStation RMS

## Remote Monitoring System

RMS in metal cabinet

Cellular Transmission

HeartStation Cloud Servers

### Top 10 Reasons to Choose RMS Cellular

1. Monitors all AED brands - even many old AED's.
2. No maintenance required for 7 - 10 years (unlike Wi-Fi and camera systems).
3. Lower cost than all other remote monitoring systems.
4. Automatically selects strongest cellular signal - no other product has this technology.
5. Utilizes multiple sensors to determine the AED's status 24/7.
6. Integrates seamlessly into AED management programs.
7. Easy installation: Installs in any metal cabinet (no passwords or complex setup required).
8. Provides complete security and database confidentiality.
9. Pushes software updates over the air automatically.
10. Available anywhere cellular signal is accessible.
